FOREWORD

The Manitoba Genealogical Society is very fortunate to have amongst its members many talented individuals. One such person is Kathy Stokes, who has chaired the special Projects' Committee for four years. Kathy's goal for the Tenth Anniversary of the Society was a publication. The book would be an index to marriages and deaths from English and French newspapers of Manitoba 1859-1881. This would provide researchers with a unique document which will be a valuable aid in checking early family histories in Manitoba.

Information for this book has been collected by Kathy Stokes, Jim Beyette, Joan Bailey and Nancy McLeod. Kathy, Jim and Joan are M.G.S. volunteers. Nancy was sponsored by the Provincial Government through the Career Start Program during the winter of 1982-83. All available newspapers were searched in the Legislature Library of Manitoba and the Dafoe Library at the University of Manitoba.

After the completion of stage one of the project, the detailed cards had to be indexed and prepared for typing. Again M.G.S. gratefully acknowledges a Career Start grant from the Manitoba Department of Employment Services & Economic Security. This grant allowed the Society to employ Ursula Boehm as a summer student. Ursula typed the manuscript and prepared it for publication.

Bill Pooley as chairman of the Ways and Means Committee, worked with Kathy Stokes, Ruth Breckman and Elizabeth Briggs to obtain a grant from the Manitoba Heritage Federation which would assist M.G.S. with publishing costs. Gorden Breckman created the cover for the book.

Kathy's endeavours continue. Early in June, research began on volume II of marriages and deaths, from the province's newspapers. Due to the increased population of Manitoba this volume will cover the years from 1882-1886. Further volumes are planned for each successive five year period.

To all people who have assisted with this Tenth Anniversary Project --many thanks! To Kathy Stokes for her professional expertise and dedicated service, I can offer the gratitude of the Society and the many people who will benefit from consulting this valuable resource. This unique index will allow easy access to vital information on nineteenth century Manitobans. It is a fine way of making our heritage accessible to society.
