COVER: Sketch is by Joan Childs, MGS #3582, who wrote: "My father, George Wright Bremner, met my mother, Florence Mary Mann, in Kipling, Saskatchewan, where they were married June 21, 1916. They had seven children, the youngest at the time being the brother next to me who was two years old when my dad was laid off the CNR during the depression. This required a move to a homestead, twelve miles from Hudson Bay Junction, Sask. in the north. My mother and six of the children stayed in the village, and my oldest brother who was fourteen, and my dad and other men who had been laid off from the railroad, proceeded to build log cabins after clearing the land of the many trees. They slept in a tree house at night so the animals wouldn't get them. The roof was made from hazelnut boughs woven with hay and overlapped like shingles. When the cabins were finally finished, my mother and the youngest children moved from the village. My oldest sister, who was sixteen, and my thirteen year old sister went to work as maids for families in the village so stayed behind. My eleven year old sister got her schooling by correspondence and taught the eight and six year olds their lessons. Even though the times were hard my dad was inspired to write the poem 'Old 44' (page 10) and, because of this poem, I was inspired to make this small pen and ink drawing of my family in front of their log cabin in 1933."

WELFORD ROAD CEMETERY

LEICESTER, ENGLAND

N.J. Arnold, MGS #1965

Your correspondent, Raymond Adams, tells us in *Generations*, March 1999, Vol. 24 No. 1, that he had to rely on ghostly help to find a family grave in the Welford Road Cemetery. It is, of course, too late to tell him now, but records of burials are kept by the Cemeteries and Crematoriums Department of the Leicester City Council, as well as at the Leicestershire Record office and the library of the Leicestershire and Rutland Family History Society. Our own family grave is down at the end near the Medical School, where is buried my grandfather, John Benjamin Oldershaw, whose mother, Mary Oldershaw, was at the St. Cross School on the Red River in the eighteen-fifties. Her time there is described in my article, "From Stromness to the Red River" in *Generations*, June 1990, Vol. 15, No. 2.

Large numbers of people moved into the towns in the nineteenth century, where there was a lack of piped water and sewerage systems. Also church and chapel burial grounds were full to overflowing. Many Acts of Parliament were passed to deal with these problems, one of them permitting Borough Councils to establish public cemeteries.

Welford Road Cemetery was designed to provide, not only a place for burial but also, a place of relaxation for the living, especially at a time when Leicester had no public parks. It was opened by the Mayor, William Biggs, on a wet Tuesday, 19th of June 1849, with a band led by Henry Nicholson, a noted Leicester musician of the time. The cemetery is well wooded, having 536 trees, of which just over 20% are limes.

The 150th anniversary of the cemetery will be celebrated on Saturday, 19th June 1999. Both Lord Richard Attenborough and Sir David Attenborough are expected to attend. A procession of horse and motor drawn hearses will travel from the cemetery to the Museum, which is also celebrating its sesquicentenary.

JEANS's LISTS and INDEXES

Jean Tucker, MGS #64

I am an inveterate list maker. Like most people I make lists of people to whom I plan to send Christmas cards. I make shopping lists and sometimes forget to take them with me. I make lists of things I must do soon and things I hope to get around to sometime. Lately, my list making has expanded to aids for doing family history research. Some members of my family have referred to these lists as collections of useless information. You be the judge.

My hobby is researching family history. This overflows into researching community history because our ancestors often were involved in their respective communities. My husband's grandfather brought his family to the Lake Dauphin valley before there was a railway or any infrastructure here. The Tuckers and about three hundred other families ventured here between 1880 and 1895 by their own means in search of homesteads. In later years their descendants decided to honour those enterprising, brave souls and built a cairn on which were engraved the names of all the heads of families who ventured here to take up homesteads or run businesses prior to the coming of the railway. I decided that I needed to know more about Dauphin's pioneer settlers and thus began a major task of compiling a list and indexing the names on the list to sources of information, thus making my research task easier. Several community histories have been written but obviously people were not into making lists and indexes then.

My pioneer list for the Dauphin area expanded to a second list, the pioneers of the Plains of Gilbert. Many years ago the newspapers that served Grandview and Gilbert Plains published stories about their respective early settlers. I have created a list of the names and have indexed them to the particular issue of the newspaper where their story is to be found, and indexed to any mention of that family in the community's history book. Also, thanks to my mother who collected many of the stories published in both newspapers, I have collected, in a scrapbook, most of the stories from both communities.

I was extracting birth and marriage notices from early newspapers and came across a mention of places that cannot be located on most maps. The William Spence family had a child born on the 1st of September, 1901, at Ottawa on the Gilbert Plains. Where is that? Not Ottawa, Ontario, but a little community south of the present location of Grandview. I decided that I should record these names and find their locations. Some old maps and directories have aided in this collection of information. A number of villages and towns that served many people at the turn of the century are little more than a ploughed field today. If you have ever read early community newspapers from rural Manitoba you will have come across the names of rural communities and school districts now forgotten.

Now I have lists of the names and locations of rural school districts once found in the Rural Municipality of Dauphin and surrounding municipalities, along with the names or rural post offices once an important part of these communities.

Community histories sometimes can provide help for family historians. Unfortunately many historical societies were a little too creative with the titles they chose so titles can be misleading. *Ten Dollars and a Dream* is a great title but could refer to any farming community in Manitoba or even in most of western Canada. I have made a list of the Manitoba community histories in my bookcase and have referenced the titles to the names of the communities whose story they tell. I hope to expand this list to include all published community histories.

While looking for a particular gravestone in the Grandview District Cemetery, I located a grave marker that provided some intrigue.

Sadly the stone cross is broken. The local newspaper item tells of the man's drowning accident at the lumber mill then situated on the Valley River beside the town of Grandview, and of the efforts being made to try to contact family members. The dreams of a Welsh family shattered, this story has become part of my collection because it is an interesting example of the difficult time that immigrants had, trying to carve out a new life from the wilderness. This man's story was never published in a Manitoba community history book because he and his family never became "established" in a community. Only his misspelled name appears in a cemetery transcription done by disinterested volunteers. Many people are unaware that this area of Manitoba was once known for the many lumber mills in the region. The broad expanse of fertile farm land does not tell that part of the community history. When people are told that their ancestor worked here in a lumber mill, they reply, "But isn't Manitoba a

'prairie province'?" I like to collect such stories because they tell of another time in the community's history.

SAD DROWNING ACCIDENT

A young man named Moses Parry, in the employ of the Theo. A. Burrows Lumber Co. was drowned near Sinnott's Rapids on Monday, April 21st.

He had been working for the lumber company during the past winter and at the time of the accident was employed on the river, his work being to walk along the river bank with a pike pole to push the logs out into the river. As he was new to the river work the foreman had cautioned him against going on the logs or ice. His partner who was working on the opposite side of the river saw him standing on a cake of ice in the river and looking across again a few moments later saw nothing but his hand above water. He immediately called for help and the body was recovered within four or five minutes, but all efforts to revive animation proved fruitless.

Dr. Harrington, of Dauphin, District Coroner, was immediately advised of the accident and decided that an inquest was unnecessary.

The body was brought down to W. E. Congdon's undertaking rooms on Tuesday and on Wednesday, April 23rd, was interred at Grandview cemetery, Rev. E. L. Kirkpatrick, Methodist minister, conducting the service.

It is understood that Parry has a wife and family in Llanfairfechan, Wales, and that a father and brother are somewhere in Alberta and efforts are being made to locate them.

Grandview Exponent April 24, 1913

I found a curious bit of information in some 1890s newspapers. The names of the patrons of the two hotels in the community were listed, including where they were from. Sometimes in another column, information was provided as to why certain people visited the community. I grew up in a small town and it was always a known fact that everyone knew everyone. Also, they knew what everyone was doing. If strangers came to town the townfolk made it their business to find out who they were and what they were doing there. They didn't consider this idle curiosity, just self preservation. I didn't realize, until reading these early newspapers, the complicity of the local newspapers in making certain that strangers did not remain anonymous. "At the Hotels" is now in my collection of lists.

In March of 1993 I published in *Generations*, under the title "They Went West — and North", a collection of 'Immigration Notes' that I had extracted from an 1898 newspaper. The names appearing in those 'lists' have created quite a bit of interest and people have written for more information. Very few of the 'immigrants' listed in those accounts settled in Dauphin, but many moved north to the communities of Fork River, Ethelbert, Minitonas, and Swan River, or went west to Gilbert Plains, Grandview, or Roblin. Others continued westward to Saskatchewan, Alberta, and of course, the famous Peace River settlement, and to beautiful British Columbia. A number of the settlers mentioned in the 'Immigration Notes' were said to have arrived from North Dakota. Most of these men were born in Ontario, migrated to the USA, and then north to the Dauphin valley a few years later. I have extracted additional 'news items' from the *Dauphin Press*, and am sharing them with you under the title "More Settlers". These are brief accounts of the arrival of new settlers to Dauphin and contain names of some of the settlers planning to continue on to the adjoining communities. Someone trying to trace these settlers now may find a name in a newspaper immigration list, or on a gravestone, or perhaps in one of my lists. Soon I will publish my lists and share them with the world. Today I am sharing portions of some lists with you. I know someone somewhere will want to know more and I hope that when they write, they will remember to send an SASE.

A PERSONAL GENEALOGICAL SEARCH

Joan Childs, MGS #3582.

These last four or five years have been frustrating, but enjoyable, since trying to solve the puzzle of my father's family.

When I first joined the Dauphin Branch Genealogical Society, I figured that my father's surname, **Bremner**, would be the only name I would be looking for. I couldn't understand why everyone else had so many names they were searching.

Now, after searching for these last years, I find I have added to my list.

About a month ago I ripped a picture out of an old album that had been my parents', and found out that it was a picture of my maternal grandmother's sister; it actually was a postcard from Pontiac, MI. This was a surprise because I always thought my grandma was an only child. Now I have to try and find out her married name.

Because I bought a computer in October, 1998, I have been able to find quite a few family members of my father's, and his father's death registration. I was really lucky that I found a **Bremner** webpage and the man is doing research on all the Bremner families in the Ontario region so I just have to keep going back to his page and am able to get further information.

I also have found my maternal g-grandfather's christening record and have just sent to LDS to get a copy of the paper. This past weekend I went to visit a cousin in Edmonton whom I had never met. She gave me pictures of my mother and my aunt when they were young girls, plus, we think, a picture of our grandmother when she was about two years old taken with her mother in Wakefield, England.

We had been to Kelowna for a wedding and I took my Family History Albums for my brother to look at. While he was looking at them he said, "I have a couple of letters that Dad wrote to his brother when he was a young man." I just figured it was the one I had got from my sister who had originally started this search, but when they got them out there was another letter that my dad had written talking about his sister's death, and one written by his sister who died shortly after she had written the letter. He also had death announcements of my dad's older brother and wife, so it was a very worthwhile trip.

Before I had this wonderful invention I didn't think I would ever find anything about this family, so I decided I would write a story pertaining to the time frame when they lived in Toronto.

I have read several books on the history of the area and time of 1872-1889, also I have been able to get some nice articles and pictures from a book my granddaughter brought home from school to do a project. Also in this same book the orphanage my father was put into was mentioned. Even though I have found out something about my family I decided I would write a story anyway with the information I have and add it to my albums, just as another interesting thing to read.

I talked about joining a club for years, but of course I never really got around to it until I retired, but I will never be sorry I did — it is fun to listen to how everyone is doing in their own personal research. I will always be sorry I didn't ask more questions when I was younger bit I guess one is more interested in everyday life than what went on before.

OLD 44

Written sometime in the 1940s by George Wright Bremner,
father of Joan Childs, MGS #3582.

Also see sketch on cover of this issue.

How I loved those days up in old 44
Where the game seemed content to stay
How I longed to go out of our log cabin door
And hear the moose pass on their way
Where the skies were all studded
With stars shining bright
And the northern lights covered the sky
You'd just feel like shouting, standing there in the night
But the hoot owls would drown out your cry
How I loved those days neath the spruce and pine
With its poplar so white straight and trim
Where the sapsuckers hum and the woodpecker drum
And the wolves howl their mating call
Where the streams are all running
And the geese flying north
Now this is in range number two
If you feel like coming to this township of ours
We're extending a welcome to you

TEN DOLLARS and a DREAM

Shared by Jean Tucker, MGS #64

A few notes about the Dominion of Canada Homestead Act:

The following is a plan of a township.

The sections are numbered 1, 2, 3, etc., and each contains 640 acres and forms a one mile square. Each quarter section contains 160 acres (64.64 hectares). Under the Dominion Lands Regulations, all surveyed even-numbered sections, with the exception of 8 and 26, in Manitoba and the North West Territories (now Saskatchewan and Alberta), which had not been homesteaded, reserved to provide wood lots for settlers, or otherwise disposed of or reserved, were to be held exclusively for homesteads. The odd-numbered sections were reserved for the purpose of being granted as land subsidies in aid of the construction of colonization railways, except in special cases otherwise ordered by the Minister of the Interior. Sections 11 and 29 were reserved for school purposes.

A "Homestead Entry" for one-quarter section (160 acres) of surveyed agricultural land could be obtained by any person who was the sole head of a family, or by any male who had attained the age of eighteen years, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg; or the local agents of Dominion Lands, and on payment of an office fee of \$10.00. The homesteader was required to perfect his entry by complying with one of the following conditions:

1. By at least six months' residence upon and cultivation of, the land in each year during the term of three years.
2. If father (or the mother, if the father was deceased) of any person who was eligible to make a homestead entry resided upon a farm in the vicinity of the land entered for by such a person as a homestead, the requirements of the law as to residence prior to obtaining patent may have

been satisfied by such persons residing with the father or the mother.

3. If a settler had obtained a patent for his first homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by Dominion Lands Act, and had obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may have been satisfied upon the first homestead.

In the event of a homesteader wishing to secure his patent within a shorter period than the three years provided by the law, he would be permitted to purchase his homestead at the Government price at the time of entry, on furnishing proof that he had resided on the land for at least twelve months from date of perfecting his homestead entry, and that he had brought at least thirty acres thereof under cultivation.

HUMOUR

A little boy opened the big old family Bible with fascination and looked at the pages as he turned them. Suddenly, something fell out. He picked it up and looked at it closely. It was an old leaf that had been pressed between the pages. "Momma, look what I found," the boy called out.

"What have you got there, dear?" his mother asked.

With astonishment in the young boy's voice, he answered, "I think it's Adam's suit!"

ORIGINS of LOCAL PLACE NAMES

Dauphin, Manitoba area

from Jean's Lists and Indexes

Jean Tucker, MGS #64. Information was gleaned from local community histories and early local newspapers unless otherwise stated.

ASHVILLE — a small farming settlement north west of present site of Dauphin. It was named for the Isaac Ashe family from Dublin, Ireland, who homesteaded there in 1894.

BIRTLIE — the name is derived from Birdtail, as in Birdtail River which flows through the valley.

DAUPHIN — settlement was created by the joining together of the settlement of Gartmore (southwest of Dauphin) and the settlement of Lake Dauphin (northeast of Dauphin). Each community wanted the railway to come to its village so the railway company solved the dilemma by locating the railroad exactly between the two villages. Lake Dauphin and Gartmore villagers literally picked up their shops and moved them to the railroad, (Gartmore merchants on the south side of the track and Old Dauphin, or Lake Dauphin, merchants on the north side of the track), creating an instant village in 1896 which was named Dauphin. Dauphin is situated on the Vermillion River which has its source in the Riding Mountains and flows into Lake Dauphin. Lake Dauphin was named for the heir to the French throne. The community of Dauphin took its name from Lake Dauphin which had been discovered and named by the French explorer, Pierre de la Verendrye, and on which he established Fort Dauphin in 1741 for the North West Fur Trading Company.

ETHELBERT — said to have been named for the two daughters of railway contractor, R.J. McKenzie. The girls' names, Ethel and Bertha, were combined to form Ethelbert.

FISHING RIVER — a small settlement north of Dauphin situated on the Fishing River, which apparently was a great place to go fishing. The Post Office originally was named Dnieper after a river in Ukraine.

FORK RIVER — name taken from the name of the river which flows through the area.

FOXWARREN — was given its name due to the number of small animal boroughs or warrens in the hills around.

GARTMORE — an early settlement established in 1880s southwest of present site of Dauphin on Lake Audy Trail. It was named after a village in Sterling, Scotland. The first store in Gartmore village was built by the Hudson's Bay Company in 1889. The village was moved to the rail site and became part of the community of Dauphin in 1896. The Post Office located on 4-25-19 west of the Principal Meridian was closed in 1900.

GILBERT PLAINS — "The Plains of Gilbert". According to the *Grandview Exponent*, 11 September 1903, "The settlement of Gilbert Plains began when Glen A. Campbell bought out all the rights of Gilbert Ross, the famous chief."

GLENLYON — named for Glenlyon A. Campbell, early settler in the area. Post Office was established before the village of Gilbert Plains and was situated south of the present site of Gilbert Plains. Post Office was established on 22-24-22 west in 1891.

GRANDVIEW — credit for the name is given to a railway construction engineer who remarked, when surveying the area where the railway was to be built, "Now isn't that a grand view!" An item in the *Grandview Exponent*, 3 October 1902, stated "The town of Grandview was two years old yesterday."

KELD — was settled in 1897 by Ukrainian immigrants from Galicia, Austria. It is situated 16 miles southwest of Dauphin near the Riding Mountain National Park on SW 32-23-20 w. Keld Post Office was established about 1902 and the first Postmaster was Mr. Ilko Skakun. Martin Kustra had the first store located about 3/4 mile south of the Catholic church. The community's name is said to have been taken from the name of a comet of the time. Only a church and a community hall survive.

Information supplied by E. Michaleski, former member of Council for RM of Dauphin.

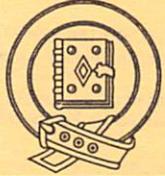

KOSIEW — small church and school community three and a half miles southeast of Keld. It was named for the Ukrainian village where its settlers originated.

LAKE DAUPHIN — settlement and Post Office northeast of present site of City of Dauphin, sometimes referred to as "Old Dauphin". In 1896 the village was moved to the rail site and became part of the community of Dauphin (also see Dauphin).

LAURIER — situated south of Ste. Rose du Lac, originally known as Fosberry. It was renamed for the Canadian Prime Minister, Sir Wilfrid Laurier.

MAKINAK — situated in the RM of Ochre River, east of village of Ochre River. Makinak is said to mean "good trail", which referred to the excellent trail over the Riding Mountain north to Lake Dauphin and through the village of Makinak. Some say the word means Turtle, as in nearby Turtle River.

McCREARY — situated between Neepawa and Ste. Rose du Lac originally was named Elliott for an early settler in the area. In the late 1890s there was an Immigration Commissioner in the area named McCreary. The town took his name.

PRESIDENT, MGS

Chris Irwin #2458

As they say in some circles, all good things must come to an end. I have found the past two years to be busy, interesting, and educational, as well as challenging. I hope I have implemented some new ideas into the Society with the aim of preparing it for the future. At this time I wish to thank all who have served with me on Council and Executive over the years and those with whom I was in contact with Branch level, in particular the Branch Presidents, for putting up with me. Many a challenging debate arose and they were all good debates. I am not gone but will sit as Past President. For all those who seek election, I wish them the best.

Two years ago the Society adopted a five year plan in principle. Some of these challenges were accomplished while others were ignored. In today's competitive world, the Society must computerize in order to make itself competitive with its peers. This must be implemented to remain competitive in the genealogical world. The computer is a communication tool that must be used to communicate within the Society, its branches, and the world. The days of talk, think are gone — the time has come to commit or fade away into non-existence.

The Society has come in very close to budget the last two years. This has made us fiscally responsible which still must be improved upon. When the times get tighter, the belt gets tighter. The income to the Society must increase in order to offset the debts budgeted for. If the income sage in the first half, then the new President will have to cut expenditures. For an increase to come, it means more members, more involvement in Outreach, and, of course, research. A more committed approach must be made, not only by a selected few, but by all in order to promote the Society as a whole. The days of the other person doing it all are gone. I have always talked "team"; now that team must play.

MGS' ANNUAL GENERAL MEETING

October 23, 1999. 5:00pm.

Holiday Inn West, 2520 Portage Avenue

The AGM follows the seminar and precedes the banquet.

Another message from the President:

Dear Members

As you may know, at its meeting on May 29, MGS' Council voted to establish a new set of awards for service to the Society.

One of them, the Eric Jonasson Award, requires nomination by any member of MGS in good standing. The award:

"is to be presented annually to a member of MGS who has made an outstanding contribution to the goals of the Society through volunteer activity.

"Any individual, associate or life member in good standing may be nominated, with the exception that previous recipients are not eligible to receive the award a second time.*

"One nominator is required for each nomination. The nominator shall be a member in good standing of MGS. The nomination shall normally include information as to the amount of time the nominee has committed to the volunteer activity, the degree of responsibility assumed, the extent to which the nominee has demonstrated reliability and commitment to the goals and well-being of the Society, and the overall impact of the nominee's activity on the Society.

"It is understood that many activities contribute to the Society's well-being. These include, but are not restricted to, involvement in Branches, the Resource Centre, committees, special projects, and special events."

* This includes the former Certificate of Merit. Current members of MGS Executive are also ineligible for the Award.

If, in the light of the above criteria, you wish to make a nomination, please send it, **not later than September 30, 1999**, to:

Dr. Geoff Lambert
Chair, Volunteer Recruitment Committee
MGS
Unit E - 1045 St. James Street
Winnipeg MB R3H 1B1

The Volunteer Recruitment Committee will make a recommendation to the Executive in time for the award to be presented at MGS' AGM on October 23, 1999.

If you have any questions, please call Geoff at 204 / 284-4186, or 204 / 474-9155.

Sincerely
Chris Irwin

DAUPHIN BRANCH

Jean Tucker, President, MGS #64

Regular Meetings: Last Thursday of the month, 7:30pm., RM of Dauphin meeting room, Municipal Office, Dauphin, Manitoba.

Dauphin Branch celebrates its 20th anniversary September 30th. We are pleased that we have been given space in this issue of *Generations* in recognition of our twenty years of being a Branch of MGS. Other members planned articles but ran out of time; perhaps their items will appear in later issues. We plan to have a potluck dinner and a special guest speaker. Founding member certificates will be presented to the members who signed the petition for our Charter.

October: Computer Workshop and perhaps a Beginners' Workshop if enough interest is shown.

November: Annual Meeting and Christmas party.

My two year term of office as Branch President will end soon; it has been a pleasure to be involved in the administrative part of the organization again. This completes five years served as Branch President and Branch representative on MGS' Council; I will be happy to "retire" and have more time to work on my own projects and do family history research again.

SOUTH WEST BRANCH

Lorne Hill, President, MGS #3211
E-Mail: MLA@Alpha.tkm.mb.ca

Regular Meetings: First Wednesday of the month (except July & August), 7:30pm, Agricultural Extension Centre, Brandon, Manitoba.

June 12, 1999, fifteen members gathered at Wawanesa Cemetery to record stone inscriptions. They met at 10a.m., had potluck lunch at noon and were finished by 2p.m. This went quickly due, largely, to cemetery board assistance re orientation of cemetery layout and provision of the names of the 800+ interred. We hope the final product will be ready in September.

A committee was set to review our Bylaws; its report is ready and will be discussed this fall and further reviewed/revised by members with the intention of having it accepted at the December meeting.

Our informative education programs for this year's meetings are set and should add interest and, hopefully, improve attendance.

We wish everyone a rewarding time with our fall activities.

Blessed are those
who return their
books
on time!

OUTREACH COMMITTEE

Leta Nardiello, Winnipeg Branch Outreach Chair, MGS #2839

Hope you all had a great summer! It was an amazingly busy one for Outreach.

A big **thank you** to all the volunteers who took time from their busy schedules to promote genealogy at all the public displays, presentations, and workshops held this spring and summer. Your knowledge, expertise, and excitement are the fuel that keeps interest in genealogy growing.

Public displays included: **Museum & Heritage Exposition** at Portage Place in March, **Scottish Heritage Festival** at the Bay in June, **Scottish Highland Festival** in Selkirk and the **Scottish Pavilion** (Folklorama), both held in July. In August a presentation was given by Daryl Dumanski at the **Gwen Sector Resource Centre**.

In addition, two introductory workshops were presented. **There's a Skeleton in my Closet**, an introductory workshop, was held on April 17, 1999, and a **Getting Started Workshop**, sponsored by Winnipeg Branch, was held May 8, 1999, following our Annual General Meeting. Thank you to Daryl Dumanski, Leta Nardiello, Gord McBean, George and Carol Glenn, and Linda White for their exceptional efforts.

If you are interested in volunteering or require any further information, you can call MGS at 783-9139, or Leta at 338-4838. See you all soon!

District Marriage Registers of Upper Canada/Can. W. Before the advent of the County divisions in 1849, the province (later Ontario) was divided into Districts. The government of Upper Canada's first attempt to gather statistics on marriages, and who performed them, resulted in a series of registers being created by the District Clerks of the Peace who expected all "nonconformist" clergy to send in yearly details of these activities. But, for several reasons, submissions to the clerk prior to 1831 were few and far between. Those District Registers which survive have the great majority of entries after 1831 due to legislation at that time, although the "established" Anglican and Roman Catholic clergy were exempt. Even then, these lists are not to be considered comprehensive as some ministers did not always comply annually. The District Registers continued up to 1858 when newer legislation was enacted. Some returns trickled in after 1858 in some places. When using these books, you must know the general location for your ancestors and which district covered that area at the time.

(OGS' publications flyer on MGS' Bulletin Board)

Many of these District Marriage Registers have been transcribed and published by OGS. MGS Library has copies of the following: Talbot, 1837-1857; Brock, 1839-1857; Huron, 1841-1848; London, 2 pts., 1795-1841 and 1842-1852; Bathurst, 1831-1852; Ottawa 1816-1853; Newcastle, 2 pts., 1810-1848 and 1848-1855.

Other volumes not yet in MGS' Library are: Johnstown, 2 pts., 1799-1848 and 1847-1863; Wellington, 2 pts., 1840-1852 and 1852-1857; Colborne 1841-1859; Home, only 1st pt. of 3 pts. complete 1808-1836; Eastern, 1801-1865; and Gore, 1842-1856.

Early Ontario Vital Stats

Ontario Vital Statistics corrections, delayed registrations, and retakes are on various birth, marriage and death index reels. Most of the changes have been put on the reels at the beginning, however, please pay particular attention to 1899 Birth reel. The additions follow the end of the alphabet, i.e. after the letter "Z". In 1899 there were a large number found, 750 pages of index.

- 1899 Birth, Stillbirth, & Delayed Registrations reel has as follows: (The letter of the alphabet and the number of pages that letter contains.) Selkirk Project Underway

Maralyn Wellauer is still actively collecting data pertaining to a select group of early Swiss emigrants who left Europe in 1821 and travelled together to Lord Selkirk's colony on the Red River of the North in Western Canada. Presently, the location is near present-day Winnipeg, Manitoba.

Beginning in 1823, entire families relocated to areas in the Minnesota and Wisconsin territories, Illinois, and Missouri. Others remained in the colony until 1826, when they too left for the US.

Ms. Wellauer is interested in evaluating the extant primary source material relating to the migration, to identify the individual members of the group by name, age, occupation, and social status; and to determine the fate of the families. Of particular interest are personal accounts contained in contemporary letters, diaries, and colonial papers.

The majority of the first group of Swiss in Wisconsin originated in cantons Bern and Neuchatel. Other cantons are represented as well. Approximately 44 families participated in this emigration, including Abram Perret (aka Abraham Perry) and Benjamin Gervais, founders of St. Paul, Minnesota, the renowned artist Peter Rindisbacher, and father of the famed Civil War General, Augustus Louie (A.L.) Chetlain of Galena, Illinois. The project focuses around a core group of 10 Swiss families with the following names: Aebersold, Chatelain, Hofmann, Marchand, Monnier, Quinche, Rindisbacher, Scheidegger, Schirmer, and Stramm.

The emigrant party also included a number of professional soldiers, of German, Swiss, and French origins, who were formerly attached to the de Meuron and de Watteville regiments. The names of primary interest are: Bain (Bane, Bayne) Bruechler (Brickler), Ehrler (Erler), Fournier, Gerber, Langet, Ostertag (Osterday), Paquet (Paquette), Polander (Bollender), Schmid (Schmidt), and Verring (Varing). AMEN

A mother was teaching her three year old the Lord's Prayer. For several evenings at bedtime she repeated it after her mother.

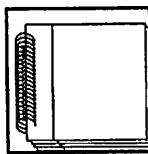

One night she said she was ready to solo. The mother listened with pride as she carefully enunciated each word right up to the end.

"Lead us not into temptation but deliver us some e-mail.
Amen."

Strays! Married Name Index to Volumes I to II of the OGS Strays Project

Edited by David J Browne for OGS, 40 orchard view Blvd., Suite 102, Toronto ON M4R 1B9, Canada. 1999. Softcover. \$10.00 (Members \$8.00) + p&h in Canada \$3.00 first item + .75¢ ea. add'l item. Outside Canada \$4.50 first + \$1.50 ea. add'l. (Payments made in US funds, deduct 20% from the total.) Canadians add 7% GST to both book & postage charges.

Another useful book in OGS' series of *Strays*. Volumes 1-3 gave no reference for the married women back to their husband's entry. This Index corrects that oversight and gives, where known, maiden names. (A *stray* is defined as a person who is described in a record of an event as being from, or connected with, a place outside the area in which the event took place. ... That person has "strayed" from his place of origin.)

From the Internet

It was the accepted practice in Babylon 4,000 years ago that for a month after the wedding, the bride's father would supply his son-in-law with all the mead he could drink. Mead is a honey beer, and because their calendar was lunar, we know (the time) today as the "honeymoon".
